SECURITY INFORMATION

INFORMATION FOR THE DIRECTOR'S LOG

Administration

5 February 1952

Mr. Lay, National Security Council, has asked the CIA Legislative Counsel to follow the proceedings of a three man subcommittee of the Senate Armed Services Committee which has been set up to look into the NSRB and the NSC for the primary purpose of ascertaining whether NSRB and NSC are operating in accordance with their statutes and whether their statutes should be amended. It is understood that the subcommittee is particularly interested in determining whether the Chairman of the NSRB should continue as a member of the NSC.

Members of the subcommittee are: Senator Russell Long, Subcommittee Chairman (D.-La.); Senator Lester Hunt (D.-Wyo.); Senator Harry Cain (R.-Wash.).

There have been no significant developments to date and there does not appear to be any great pressure at this time.

cc: Mr. Pforzheimer
